The Fintform in Full.

We, the representatives of the democratic party of Missouri, in state convention assembled, do hereby realiffm our allegiance to the time honored principles of the democratic party as formulated by Jefferson, Jackson and other great leaders of political thought in this country. We believe that in order to perspectuate the principles enunciated by them it is essential that the democratic party shall be in the ascendancy in the state and federal government. We declare in favor of equal rights to all and special privileges to none, local self government; the highest degree of personal liberty consistent with the public good, and attrict construction of the federal constitution. We condemn the use of federal troops in the state unless requested by state authority. We favor income tax, whereby the wealth of the country, which now largely excapes taxistion, may be made to bear, its just pruportion of the public burden. We declare that the federal government has no constitutional power to impose and collect tariff duties except for the purpose of revenue, and we demand that the imposition of such taxiation shall be greatly reduced and limited to the necessities of the government when honomity and economically administered, and in the case of trust manufactured goods, the they shall be placed on the free list.

Trants and the Cheege Pistform.

Trusts and the Chicago Pintform.

We reaffirm and indorse the democratic national platform adopted at Chicago in 1886, and declare our continued fealty to the utterances there enuicitated upon the free and equal exhage of silver and gold at the established ratio of 16 to 1, and we demounce as unwise and dangerous in the extreme the simple gold standard bank act of the present seasion of congress, which places the control of paper circulating medium in the hands of the national bank corporations.

places the control of paper circulating medium in the hands of the mational hand corporations.

We denounce as one of the most trying evils of the day the present tendency toward monopoly and the destruction of competition, particularly the industrial combination known as trusts. We arraign the repositiona party as guilty of the grossest hypocrisy in the treatment of this question, in that being in the ascending the competition of the property of the power of the control of the power of trusts; has falled to withdraw tariff protection from trust made goods; has constituted the leaders of trusts as the leaders of its party in the nation and accepted the contributions of millions of dollars to the gigsnite corruption fund, which fact in timelf is a menace to the stability of our free institutions. We declare that the existence of trusts is opposed to the public welfare as regards the employment of thousands of persons who have been deprived of a means of livelihood, and in their exactions from consumers. In addition to which they are a threat sgainst liberty itself, in that they undertake to control our elections with money. While we would protect legitimate business corporations in all their just rights, we hereby emphatically voice our opposition to the outfinance of trust domination in the business affairs and politics of the nation, and we pledge ourselves, as we have the continuance of trust domination in the business affairs and politics of the nation, and we pledge ourselves, as we have given to the people the strongest possible legislation on this subject in our state, to see to it that it is enforced; and that it selds to see to it that it is enforced; and that it shall be when in our power enforced by the federal government believing, as we do, whenever the federal government will co-operate in its sphere with the state government in this direction that the people will have relief to which they are entitled.

Pitzsiumoss Has an Abicess on His Hand New York, June 7.—Robert Fitz-simmons, the pugilist, was examined at Believue hospital yesterday by Dr. John H. Sullivan, who announced that We relievate our adhesion to the Mon-roe doctrine and deprecate the departure-from its principles which have been made by the republican administration in its war for conquest of anti-podeal territory, and we believe that the maintenance of the Monroe doctrine as interpreted from its foundation to the beginning of the present republican administration, is nec-sancy to the safety of American ascen-dancy in American affairs, including the exclusion of any newly acquired Eu-ropean authority from this continent. We unqualifiedly believe in the expan-sion of trade relations of this country with all the world, and in such expansion of continuous American territory as shall be consistent with the views of Jef-Fitzsimmons is suffering from an ab-seess on his left knuckle. The commercial interests of the United States require the upbuilding of our merchant marine, which prospered under democratic rule and ranked with that of England and promised to outstrip it. Under republican rule our foreign bound vessels have practically disappeared, and the American flag become a stranger in the seaports of the world. To this end we declare for free ships.

We sated our enriest sympathy to the people of the Boer republics in South Africa who are struggling to maintain their right of self-government and liberty. With renewed faith in the ability, patriotism and courage of Hon. William J. Bryan, believing him to be the greatest exponent of the principles for which the democratic party stands, and satisfied that power would not dazzle nor wealth blind him to the duties which he owes to the people, we express it as the wish of this convention that the delegates from Missouri to the national democratic party for president of the United States.

We believe all corporations doing business in this state should bear the just proportion of taxation; we therefore demand the taxation of all corporate franchises, both domestic and foreign, doing business in the state. We favor the arbitration of difficulties between employers and employes and pictage the democratic party of the state of Missouri to carry out this principle by appropriate legislation. We view with deep concern the strugtle between corporate wealth and organized labor, and affirm that labor has the right to organize for mutual benefit, and a decial of this right is contrary to the appric of the constitution.

Aguinaldo's Secretary of State Says Bryan and Hoar Wrote Letters of Sympathy to Filipino Rebeis.

Manila, June 12-(correspondence) -The great store of insurgent docu-ments discovered by Gen. Funston throw interesting light upon the Fili-pino government. But Buencamino, the secretary of state of the Filipino revolutionary government, who is in Manila, says none of the really impor-tant secret papers were found. He says that among the missing papers was correspondence with foreign gov-ernments and letters from anti-imperialists, including W. J. Bryan and Senator Hoar. All of these, he says, were sent to Hong Kong last Septem-ber for safe keeping in the hands of E. G. Rathbone, former director of posts, are increasing.
